GstarCAD for Mac Installation Guide

1. Hardware Requirements

Operating System: macOS

CPU: Apple M series (ARM64)

Memory: More than 8 GB

Hard Disk: More than 250 GB

Graphics Card: Supports a minimum display resolution of 1024 x 768 pixels

2. Software Installation

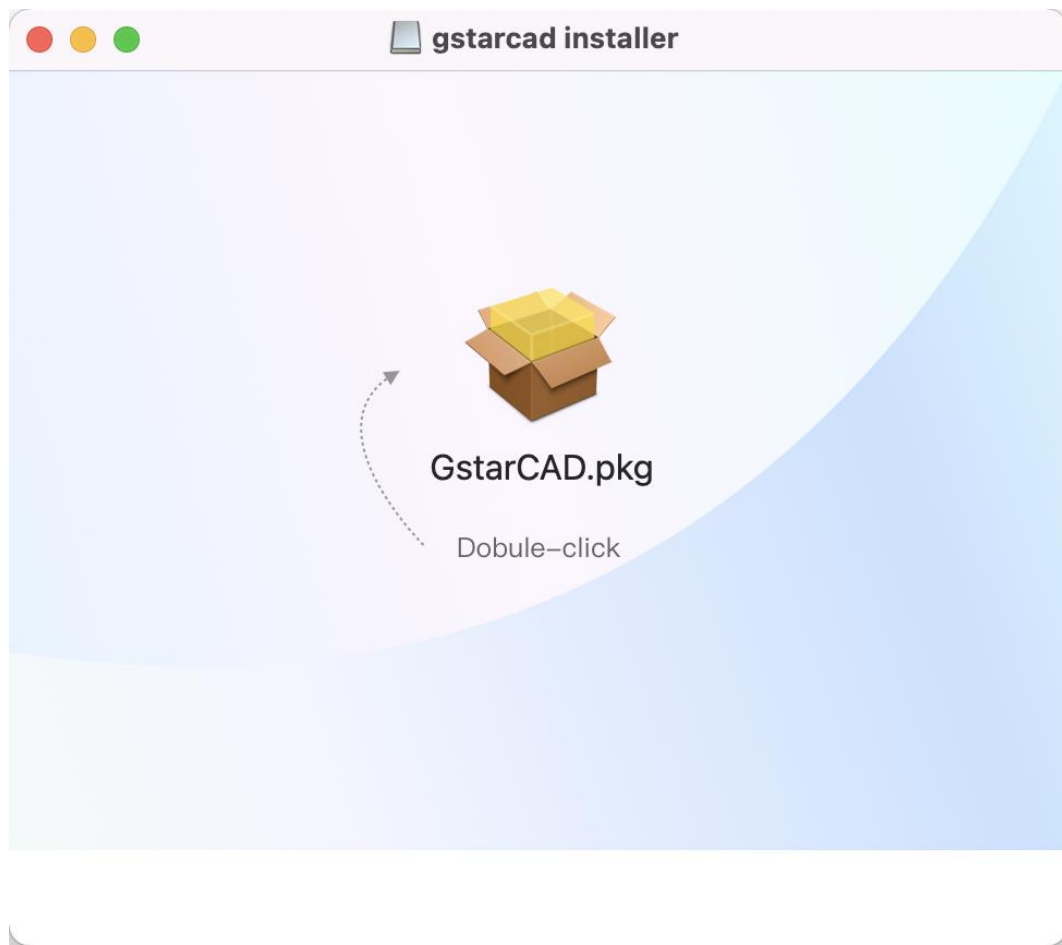

Users can visit www.gstarcad.net to download GstarCAD for Mac or contact GstarCAD customer service to obtain the installation package of GstarCAD for Mac (*.dmg file).

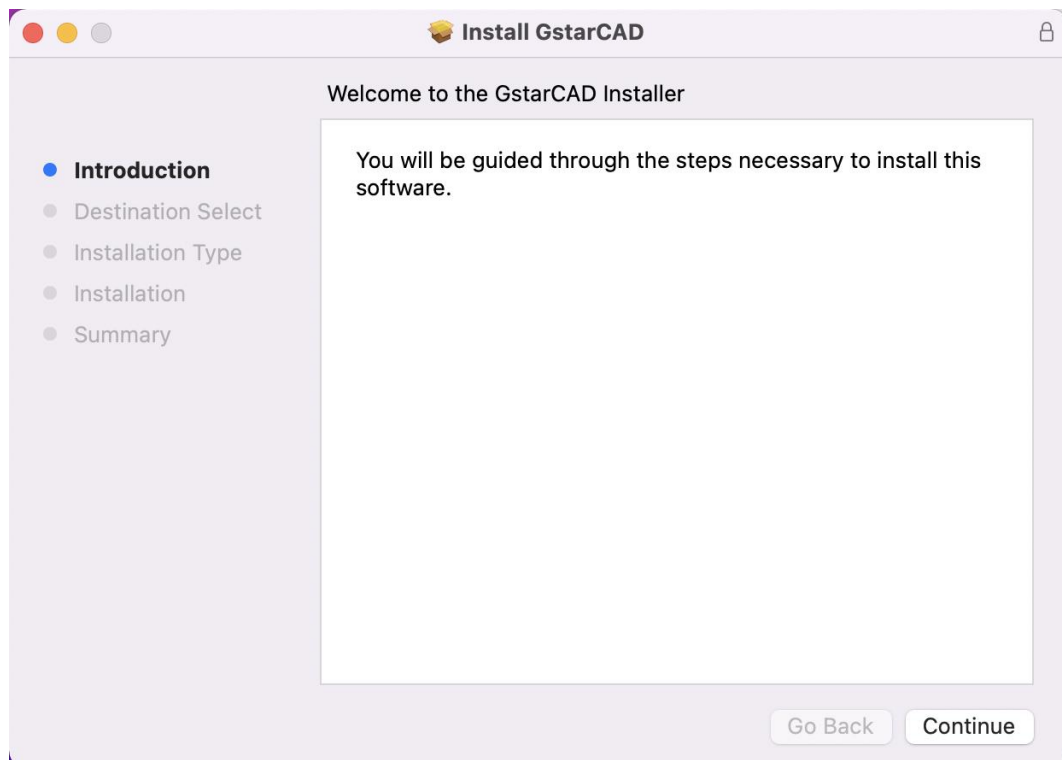

GstarCAD for Mac Install Wizard will guide the user to install the software in the operating system completely and successfully.

Please follow the steps below to install GstarCAD for Mac:

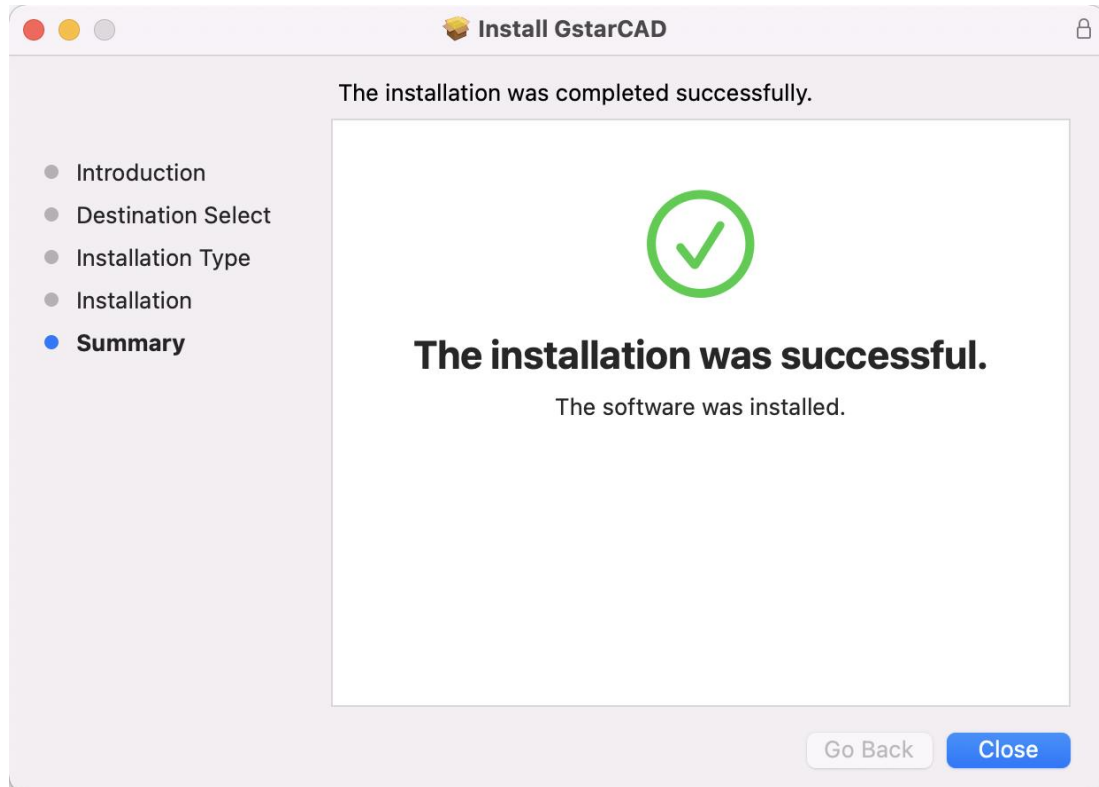

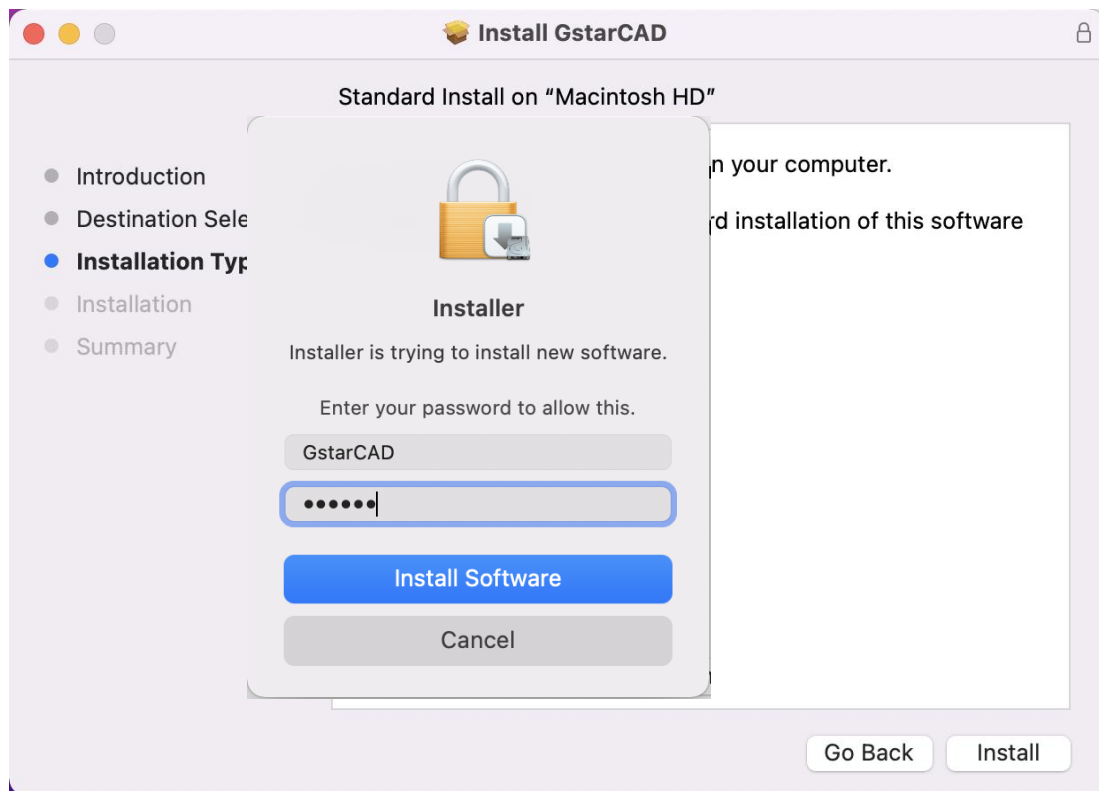

- 1) Double-click the executable file downloaded (*.dmg file), and the [GstarCAD Install Wizard](#) dialog box will pop up.

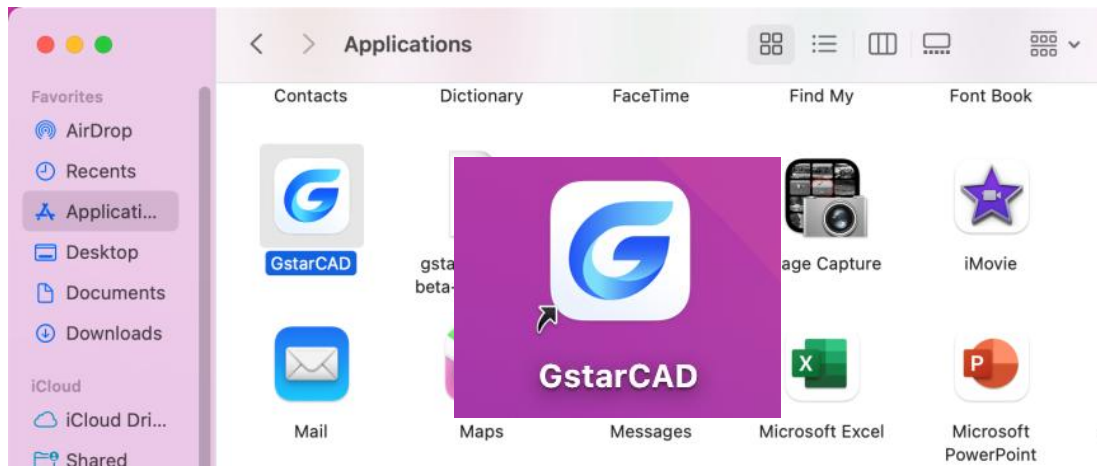

- 2) Double-click the [icon of GstarCAD.pkg](#), and the GstarCAD wizard will pop up. Click the [Continue](#) button to proceed with the installation.

- 3) Follow the installation wizard, enter your power-on password, and click [Install Software](#) to complete the installation.

- 4) After the GstarCAD wizard has successfully installed GstarCAD for Mac, please click the [GstarCAD](#) icon in the launcher to start GstarCAD for Mac.
