Houseplan Installation Guide

1. Client System Requirements

| Operating System | WINDOWS 7 64-bit/ WINDOWS 10 64-bit |
|------------------|-------------------------------------|
| Note | Only support 64-bit windows system |

Houseplan was primarily designed for the Microsoft Windows 10 operating system; however, it may be compatible with Windows 7 as well. It should be noted that Microsoft has stopped official support for Windows 7, which may result in unpredictable problems such as missing system files or unsupported files. In such cases, these issues may not be able to be resolved.

Tips:

The installation account must have administrative privileges.

Prior to installation, please ensure that security software such as 360 Security Guard is closed.
